A light gray with a cool undertone that can read either slightly green or blue depending on the lighting. I love it because it's crisp and clean without feeling cold and drab.

Curtains are not only a great way to increase privacy in the bedroom, they are also a great way to add pattern and texture.

A large rug is a great way to add color, texture and pattern to your space. Make sure to choose a size proportionate to your space.

8.

Use a large mirror opposite a window to reflect light back into the room and help it feel larger and brighter.

Rugs are a great way to add pattern, texture and softness to a space. I love Ruggable because the top layer of the rug can be removed and machine washed - perfect for high traffic spaces like the kitchen!

Create extra storage and work space in with a free standing kitchen island. If you have painted cabinets consider a wood island to add warmth and texture.

Quartz is a great option for kitchen counters. It's durable, resists stains and scratches and comes in a variety of colors

Did you know a kitchen sink with softer, rounder corners will be easier to keep clean?
